Wichita media view Airborne Laser

WICHITA, Kansas — With the Airborne Laser as a background, Col. Ellen Pawlikowski, center, director of the Airborne Laser System Program Office at Kirtland Air Force Base, N.M., briefs Wichita news media representatives on the aircraft, which recently flew following two years of major modifications. In addition to speaking to approximately a dozen news media on August 20, the colonel was interviewed for a program titled "Ultimate 10: Military Machines" that will air on The Learning Channel.
